**Expert Opinion.**

What is the use of a child's going to school to learn mere grammar? Such evidently is the opinion of the mother of a girl whose teacher instructed her to purchase a book on that subject. According to a writer in the Burr Oak Herald, Lulu came back the next day with this explanatory letter:

I do not desire for Lulu shall engage in grammar, as I prefer her to engage in useful studies, and can learn her how to speak and write properly myself. I have went through two grammars, and I can't say as they did me any good. I prefer her to engage in German and drawing and vocal music on the piano.

**Gladdening His Heart.**

"Dear papa," wrote the little girl at the summer resort, "I have gained six ounces in weight since we came here. Mamma sends her love. Please write to us to-morrow. Send your love and all the money you can spare."—Chicago Tribune.

**Steamer Brings \$900,000.**

Dawson, Y. T., June 7.—The steamer or Schwatka arrived from Fairbanks yesterday, the first boat of the year from the lower Yukon. The Schwatka brought \$900,000 of Tanana gold for Seattle. The gold is being shipped this year by express. The next steamer will bring \$1,000,000 of Fairbanks dust. The Schwatka sailed immediately for the Iditarod, carrying 35 passengers to that point and 15 to other points.

**\$35.59 Each Man's Portion.**

Washington, June 7.—Treasury officials figure that if all the money in circulation in the United States were divided equally, every man, woman and child would have \$35.59. The total amount in general circulation is \$319,382,284, of which \$298,076,537 was held in the treasury as assets of the government.

**UNITED EFFORTS TO SAVE TIMBER**

Railroads, Timbersmen and Officials Co-operate.

Disappearance of Prospective Tonnage Stirs Roads to Action—Big Increase in Values.

Portland, Ore., June 7.—Realizing that with the burning of every thousand feet of standing timber there is a loss of labor amounting to \$8, that stumpage values decrease \$2, and the railroads see the vanishing of tonnage which cannot be replaced for many years, the necessity of adopting safety measures for the prevention of the repetition of the fires of 1902 has led to the organization of several cooperative associations.

Oregon and Washington in 1902 helplessly watched the gigantic conflagrations which wiped out a large amount of the visible assets of the states, and also resulted in the destruction of two towns, Springwater, Or., and Brush Prairie, Wash., more than 20 lives being lost.

That fire occurred in a dry season in the mountains, and was only one of the many which raged along the Cascades and adjacent ranges. It is said by timber cruisers and millmen from the upper waters of the rivers of the two states that the year 1910 is thus far a duplicate of the conditions which made possible the losses of that season.

Anticipating the danger which is sure to exist, an effective system of patrol is being placed in operation, the railroads, timber owners, state and county organizations joining with the forest service in an endeavor to prevent the occurrence of fires and to control those which may be started.

Many of the large railroads on the Coast have begun clearing their rights of way of all inflammable material for a distance of 100 feet on either side of the center of the track, equipping their engines with spark arresters and instructing train crews and employees in fire fighting. Sparks from railroad engines have proved the greatest cause of fires, and are followed by donkey engines, hunters and campers' fires, mill smokestacks and lightning. One of the destructive fires of the Coast Bay region was caused by a settler knocking the ashes from his pipe among the dry leaves and twigs beside a log on which he was resting.

An effort will be made to keep in touch with slash burnings made by settlers and to warn all persons entering the forests of this state of the necessity of exercising care in handling fire. The forest lands are now plastered with warning signs.

In this manner it is hoped to save the tremendous values which are becoming available with the development of railroads. Timber sections which at one time sold in Oregon for \$500 have recently changed hands for as much as \$160,000. On that basis the prevention of forest fires becomes a matter of stern business.

**MISS MORGAN OBSERVER**

Daughter of Financier Mingles With Aqueduct Laborers.

New York, June 7.—To see with her own eyes the conditions under which the men who are building the Catskill aqueduct to New York City are working, Miss Anne Morgan, daughter of J. P. Morgan, went 500 feet below the surface of Rondout valley today and talked for hours with gangs of Italians and negroes.

Accompanying her were Miss Frances Keller, secretary of the State Immigration department, and Dr. David Flynn, sanitary superintendent of the board of water supply. The trip was made as a result of a criticism published by Miss Keller in a magazine article.

Miss Morgan had little to say of her observations, but she praised the engineers and begged them to "be kind to the poor fellows."

**President Returns Home.**

Washington, June 7.—President Taft returned to Washington tonight at 8:44 o'clock from his Western trip. He went directly to the White house, declaring he intended to see no one this evening.

The president was highly pleased with the enthusiasm shown by the crowds that greeted him at the railroad station at which his train stopped today. Although there was a steady downpour of rain, cheering crowds hailed Mr. Taft, who spoke briefly at several points.

**Madrid Ready for Mediation.**

Bluefields, Nic., June 7.—General Estrada, leader of the provisional government, has repeated the offer that he made last March to Madrid looking to the establishment of peace.

The conditions of his proposal provide for the friendly mediation of the United States, that country to designate the Nicaragua whom it considers most fit to occupy the presidency provisionally, neither Dr. Madrid nor General Estrada being eligible; the provisional president to convolve elections for a constitutional president.

**A Hair Dressing**

If you wish a high-class hair dressing, we are sure Ayer's Hair Vigor, new improved formula, will greatly please you. It keeps the hair soft and smooth, makes it look rich and luxuriant, prevents splitting at the ends. And it keeps the scalp free from dandruff.

Does not change the color of the hair.

Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.

**Ayer's**

At the same time the new Ayer's Hair Vigor is a strong hair tonic, promoting the growth of the hair, keeping all the tissues of the hair and scalp in a healthy condition. The hair stops falling, dandruff disappears. A splendid dressing.

**"A Mite Too Frying."**

Bushby had many natural advantages and beauties, but Mrs. Abner Crane, who was a brief sojourner in the place, having been there only a matter of ten years or so, never appreciated it. "She was aching to get back to Nashua the whole enduring time," said one of Mrs. Crane's Bushby neighbors, "and I was glad to see her go, feeling as she did."

"What was it she didn't like about Bushby?" asked one of the summer residents, curiously.

"She said she didn't get the news of the day quick enough to suit her," quoted the neighbor, with as near an imitation of Mrs. Crane's air as she could manage.

"As I said to my say, what on earth she wanted more than we have in the way of newspapers here, I don't know."

"When you consider that there are five telephones in town, a grocery was gone driven by Lucy Grant's boy twice a week, Lucy Grant herself to see for everybody in town by the day, and all taking milk from Jed Kimball, I don't know how we could be any better fixed. I call anybody that wants more news 'th's day than Bushby folks get a mite too prying myself."
